Winter Session 2007 (15 Weeks)

Residence halls open for returning students.....	January 7
First day of classes, Tuesday at 5:00 pm	January 9
Deadline for Summer 2006 incomplete grades.....	January 15
Last day to add classes	January 19
Last day to drop courses without record	January 19
Last day to withdraw from first-half courses	February 9
First-half courses end.....	February 23
Second-half courses begin	February 26
Mid-session grades due by 4:00 pm.....	February 28
Mid-session break begins (no classes)	March 7
Classes resume Monday.....	March 12
Last day to withdraw from full-term courses.....	March 16
Pre-registration begins for Summer/Fall 2007.....	March 19
Last day to withdraw from second-half courses	March 30
Honors Day	April 5
Good Friday (no classes)	April 6
Last day of classes	April 16
Final Exams	April 17-20
Last day of session	April 20
Residence halls close	April 21
Spring break begins.....	April 21
Final grades due by 4:00 pm.....	April 23

Spring Session 2007 (4 Weeks)

Residence halls open for returning students.....	April 29
First day of classes, Monday.....	April 30
Last day to add classes.....	May 2
Last day to drop courses without record.....	May 2
Last day to withdraw.....	May 11
Last day of classes/session.....	May 25
Commencement.....	May 26
Grades due by 4:00 p.m.	May 29

Registration Instructions for Continuing Students

The Winter/Spring 2007 Timetable of Courses contains lists of courses offered for the winter and spring sessions of the 2006-07 academic years. Priority online registration is scheduled to begin **November 13**. In order to register, students need to do the following:

1. Remove financial holds.

A financial hold indicates that you have an outstanding balance with the Business Office. Please view your account on *The Bridge* to see if you have a hold. You must clear your hold before you can register.

2. Understand billing ramifications.

Overload charges are applied at the 18th credit. A student who registers for 17 credits will not be charged an overload fee, but if that same student registers for another credit or more, a fee of \$390 per credit will be charged. There are no overload waivers. Any student who registers to audit a class will be charged an additional fee of \$150 plus any applicable course fee, regardless of whether or not the student is enrolled full-time.

3. Make an appointment with your advisor.

Schedule an advising appointment. You may change your advisor by completing a Change of Advisor Request form and submitting it to the Registrar's Office after permission has been obtained from the new advisor. Many classes close early, so meet with your advisor as soon as possible.

4. Review the Timetable of Courses and the College catalog.

Plan a tentative schedule by using the planning worksheet before you meet with your advisor. Planning a schedule of courses should always begin by considering your progress toward completing a chosen program of study. Students are responsible for knowing the College catalog and the requirements stated therein.

5. Finalizing your schedule and obtaining your alternate pin number.

Review your tentative winter and spring schedules with your advisor. Make sure that you have alternate course selections. Once your schedule is finalized with your advisor, s/he will issue you an alternate pin number. You will be prompted for this pin number when you register or make any schedule changes on *The Bridge* so have it handy.

6. Courses requiring instructor consent.

You will need to complete an add/drop slip for the courses that require an instructor consent, or for prerequisites to be overridden. The instructor of that course will need to sign the add/drop slip. You do NOT need your advisor signature for these.

Final Exam Policy and Schedule

1. Because the final examination week is part of the required meeting time for the session length, faculty are required to conduct an examination or culminating period during this week for all classes. When an examination is not given, a culminating period can be used to return exams and/or papers, give students course feedback, schedule individual appointments, or conduct assessments.
2. A final exam is defined as the last examination of the course. No examination should be scheduled during the last week of classes.
3. No take-home final examination should be due any sooner than the period designated for that course during final exam week.
4. Co-curricular activities involving significant amounts of student time should be prohibited during the last week of classes.
5. No student or faculty member is allowed to move an examination to a time other than the one that is designated for that class.
6. Examinations for evening classes (4-10 p.m.) will be given at the regular class meeting time during the session examination week.
7. Because classes meet several times each week, the schedule refers to the first meeting of the class. Classes scheduled over two or more class periods will be tested according to the first period scheduled (i.e., classes meeting 2:30 to 4:20 TR will be tested during the block assigned to 2:30 classes meeting regularly on Tuesday). Classes meeting only once a week or those whose first meeting is not Monday or Tuesday, will be tested according to the M schedule for M/W/F combinations and to the T schedule for T/R combinations.
8. If other than the regularly assigned room is to be used, space must be cleared through the Registrar's Office at least 24 hours in advance.

Final Exam Schedule for Winter 2007

Tuesday, April 17, 2007

8:00 am — 10:00 am

All 9:30 am classes meeting regularly on Monday

10:30 am — 12:30 pm

All odd-hour (9:30, 1:30, 3:30) classes meeting regularly on Tuesday

2:00 pm — 4:00 pm

All 2:30 pm classes meeting regularly on Tuesday

Wednesday, April 18, 2007

8:00 am — 10:00 am

All 1:30 pm classes meeting regularly on Monday

10:30 am — 12:30 pm

All 3:30 pm classes meeting regularly on Monday

2:00 pm — 4:00 pm

All 12:30 pm classes meeting regularly on Monday

Thursday, April 19, 2007

8:00 am — 10:00 am

All 8:30 am classes meeting regularly on Monday

10:30 am — 12:30 pm

All 12:30 pm classes meeting regularly on Tuesday

2:00 pm — 4:00 pm

All 10:30 am classes meeting regularly on Monday

Friday, April 20, 2007

8:00 am — 10:00 am

All 11:30 am classes meeting regularly on Monday

10:30 am — 12:30 pm

All 8:30 am classes meeting regularly on Tuesday

2:00 pm — 4:00 pm

All 2:30 pm classes meeting regularly on Monday

Winter 2007 - New/Modified Course Descriptions

BIO250 – Birds of Mexico Preparatory

This course is designed for all students who get accepted into BIO 250 Birds of Mexico course for May term, 2007. It is set up primarily as a meeting time to discuss logistics and prepare ourselves for international travel.

ENVXXX - Sustainability Semester in Nicaragua and Costa Rica

Human Ecology, Global Environmental Issues in Costa Rica and Nicaragua. Study language and culture, critical thinking and participate in service learning projects in community sustainability. Housing is in family stays and students work with local environmental organizations. Instructor: D. Lagerroos. Paper registration via Special Course Forms

ENV150-01 - Basic Ideas-Sustainable Behavior

The transition to sustainability will require leaders with “big picture” knowledge as well as excellent group-process skills. This experimental course is based on “Macro Analysis Seminars,” which for the last 40 years have aided activists in understanding basic ideas about global-to-personal issues. This is not a typical class. Each week, students will report briefly on their readings and the group will develop cooperative skills as together we develop an informed, coherent viewpoint. This will culminate in a group-designed project to foster sustainable behaviors.

ENV150-02 – The Natural Step for Business

Course focuses on the Natural Step philosophy and how it relates to business and personal life. Students will have the opportunity to create a strategic plan towards sustainability for a business or organization.

ENV/NRS350 – Ecological Restoration

Ecological restoration is a practical means for people to participate positively with nature. The course focus is on understanding both the relevant underlying principles of ecology and the practical nuts-and-bolts of designing and implementing restoration plans. Topics include plant communities, design concepts, assessment techniques, prescribed fire, and working with clients, contractors, and volunteers. Thus students are expected to integrate theory and practice in a project planning process.

HIS250 – History of American Political Thought

This course is a study of several dominant ideas of American political discourse, which have provided some basis for American political thought and behavior from the eighteenth through the twenty-first centuries. Several important political texts will be examined and analyzed in a seminar format.

NRS331 – Conservation Genetics

A study of the principles of transmission, molecular, and population genetics as applied to imperiled and exploited species. The course will prepare students to interpret a variety of molecular data which can shape conservation and management decisions and apply quantitative methods to address questions related to populations, taxonomy, or phylogenetics. The course will utilize extensive case-studies from the primary literature to demonstrate applications of conservation genetics.

OED350/550 – Environmental Ed Skills Wkend

The Wisconsin Association of Environmental Educators, in partnership with the Sigurd Olson Environmental Institute, is offering its winter workshop built around the theme of “Experience Nature – Get Outside”. Workshop runs from the evening of Friday January 26th to the afternoon of Sunday, January 28th. Program tracks include Outdoor skills/programming, EE outdoor activities/curriculum, and EE Program Administration. Two of the three tracks encourage outside activity participation by the attendees. Registration is by special course registration form only - students cannot register for this course using the Bridge. Please see instructor, Steve Sandstrom, for details and associated fees.

PED050 – Budo Taijutsu

The main focus of the Budo taijutsu class is for students to learn the physical, emotional and mental skills applicable to the defense of self and others. Budo taijutsu is a martial art which has roots in several traditional martial Ryu (family schools) from Japan including Jujutsu, (joint locks and escapes) ninjutsu, (complete art) kenjutsu, (sword) and others. This course will introduce students to concepts and techniques on how to effectively deal with conflict, whether this be conflict of a physical nature or otherwise. Budo taijutsu stresses naturalness of movement and creativity of expression and therefore is well suited for all ages and physical conditions as well as those with physical disabilities. Our class will focus on Ukemi (injury prevention in the form of rolls and break falls) Waza, (fighting scenarios done with a partner), Tihenjutsu (physical conditioning and flexibility) and basic training weapons practice.

PED050 – Ice Skating

This course will include skills and knowledge essential for the beginner to improve all aspects of their skating stride, turning edges and stopping edges.

PSY250 – Eco-Psychology

Ecopsychology explores causal connections between the existential conditions “nature estrangement” and “nature alienation” and diverse situations where psychological wellness is compromised in various degrees of severity. Some of the illnesses or mal-adaptations that ensue from “nature estrangement” and “nature alienation” may be, at present and in the past, misdiagnosed, and while using modern medical terminology, treated from an “urgency” intervention model-bias that is insensitive to long-term, life-long “natural prevention.” Ecopsychology assumes that in the absence of long-established ancient (biological or cultural) adaptations or traditional practices that were once (still are) conducive to a simpler and more manageable life in the presence of "raw nature" or sustainable cultivated nature, and in the midst of aberrant and extreme changes to these “body-spirit”-good adaptations and traditional practices, the human psyche is assaulted, overwhelmed, and made ill by artificial and unjustified complexity.

PSY350 – Psychology of Emotions

This is a title change from Seminar in Emotion and Cognition. This upper-level seminar provides an in-depth examination of emotions, as an individual experience and as an interpersonal phenomenon. The course will examine the nature and causes of emotions, both positive and negative, and how emotions affect our behavior and our perceptions. In particular, we will focus on the practical consequences of our beliefs and expectations about our own and other people’s emotions. We will use this information to re-think our assumptions about emotions and learn ways to interpret and re-interpret other people’s emotional behavior. We will also examine the relationship between emotion and rationality, and the possibility of intentionally modifying one’s emotions. Depending on the specific interests of the seminar members, we will explore such topics as the physiological basis of emotion, emotional intelligence, and the role of emotion in creativity.

PSY350 – Empathy & Listening Skills

This upper-level seminar provides an in-depth examination of the nature of empathy: its relationship to listening skills, its emotional and cognitive components, how to develop and use it, and how we may fail to use it effectively.

Empathy makes it possible to listen accurately to another person, to hear what they're saying and what they aren't saying. Our inability to empathize and our pre-conceptions about the nature of empathy may interfere with our ability to listen to and help others. Similarly, our ability to listen to ourselves depends on our understanding of empathy. Thus, questioning and re-thinking assumptions about empathy can open new paths of communication with others, and give us new knowledge about ourselves.

SOC233 – Self and Society

Analysis of the theories of self and social identity as they relate to personal development, social cohesion, social rebellion, and culture.

Spring 2007 - New/Modified Course Descriptions

BIO250 – Birds of Mexico

This course will introduce students to the diverse birds that inhabit the mountainous regions of Mexico. Students will gain proficiency in bird identification skills, GIS mapping, and habitat analysis. Students will stay at the Tutuaca Mountain School in the Sierra Madre Mountains in Chihuahua, Mexico. The research station covers 17,000 acres of preserved land recently purchased by The Nature Conservancy and World Wildlife Fund. We will familiarize ourselves with the birds we are likely to observe in a lecture format, prior to departure.

ENV250 – Renewable Energy

This course is an introduction to the science of renewable energy and the economics necessary to achieve a sustainable future. Topics will include an overview of the principles of energy production, traditional methods for generating power, requirements for sustainability, environmental impacts, and an in depth investigation of solar, hydro, wind, geothermal, biomass, tidal, and other forms of renewable energy.

GSC250 – Geology of the Southwest US

Discussion of the dynamic geologic history and processes that shaped the unique geology of the American southwest. Emphasis on events, strata and landscapes. Field experience in New Mexico, Arizona and Utah.

HIS350 – The French Revolution

A comprehensive study of one of the most crucial events in European history, from its origins in the Enlightenment and political developments of the eighteenth century through to the fall of Napoleon. Readings will include primary works generated by revolutionaries as well as secondary studies of the revolution's impact on European politics, society, and culture.

HIS350 - Modern German History

This course, offered in prose seminar format, covers the period of German history between 1870/71 and the present. In this seminar students will examine the major issues in German history beginning with the Grunderzeit era down through German reunification in 1990. An emphasis will be placed upon the political, economic and cultural forces at work in Germany during this period.

DOMESTIC AND INTERNATIONAL TRAVEL COURSES FOR SPRING (May) 2007

International study trips and domestic travel courses have individual fees attached above the cost of any tuition or audit fees and have certain requirements for payment, refundability, and eligibility for participation. Students interested in foreign study or other College sponsored trips should contact the instructor to obtain a copy of the itinerary, estimated costs, and payment schedule. All trips require deposits/prepayments before the departure date. Students should also inquire about other out-of pocket expenses such as passports.

Students may be eligible for some financial aid to assist in the cost of these courses. Please contact the Financial Aid Office directly for assistance.

Students must register for credit or audit. Course fees will be charged the session prior to the course. Travel/course fees over \$100 have special refund dates for each course. Contact the instructor for details. Pre-registration for these courses is contingent upon compliance with deposit and payment schedules. (See tuition and deposit schedule printed in this *Timetable*.) Student accounts will be monitored for unpaid balances preceding the trip. The Business Office reserves the right to un-enroll a student due to an unpaid balance. In such cases, the student will still be responsible for the portion of the deposit that is not refundable.

ENG240 Pens and Paddles in the North Woods

A wilderness-based course combining literary study with fieldwork. Students will read accounts of north woods canoe journeys by authors such as Henry David Thoreau, Florence Page Jacques, and Sigurd F. Olson, and then travel to the Boundary Waters Canoe Area for a 10- to 15-day canoe trip. Prerequisite: Instructor consent. Liberal Education: Literature and Environmental Perspectives.

BIO250 – Birds of Mexico

This course will introduce students to the diverse birds that inhabit the mountainous regions of Mexico. Students will gain proficiency in bird identification skills, GIS mapping, and habitat analysis. Students will stay at the Tutuaca Mountain School in the Sierra Madre Mountains in Chihuahua, Mexico. The research station covers 17,000 acres of preserved land recently purchased by The Nature Conservancy and World Wildlife Fund. We will familiarize ourselves with the birds we are likely to observe in a lecture format, prior to departure.

General Information

Course numbers used in the Timetable of Courses indicate the academic level for which each course is primarily intended.

028-099 Prep/Skill Building
 100-199 Freshmen/Introductory
 200-299 Freshmen/Sophomores
 300-499 Juniors and Seniors
 500 Graduates (requires previous receipt of bachelor's degree)

Courses are grouped into various departments and have been assigned the following departmental codes:

ART	Art
BCH	Biochemistry
BIO	Biology
BUS	Business Economics
CHM	Chemistry
CIS	Computer Information Systems
ECN	Economics
EDU	Education
ENG	English
ENV	Environmental Studies
FIN	Fine Arts
GCS	Geoscience
GIS	Geographic Information Science
GOV	Government
GWS	Gender & Women's Studies
HCA	Health Care Administration
HIS	History
IDS	Interdisciplinary Studies
MET	Meteorology
MLG	Modern Languages
MGT	Management & Leadership
MTH	Mathematics
MUS	Music
NAS	Native American Studies
NRS	Natural Resources
NUR	Nursing
OED	Outdoor Education
PGS	Peace, Conflict, & Global Studies
PED	Physical Education
PHL	Philosophy
PHY	Physics
PSY	Psychology
REL	Religion
SOC	Sociology

Lab sections are indicated with an "L" after the section number (i.e. BIO1010-08L indicates lab section 8 of BIO101). Sections are indicated by the 01, 02, 03, etc. after the department and course numbers (i.e. BIO101-02 indicates section 2). Courses with multiple course and/or lab sections are listed consecutively.

Day of the Week Codes

Codes for class meeting dates are as follows:

M = Monday T = Tuesday W = Wednesday
 R = Thursday F = Friday S = Saturday
 U = Sunday ARR = Arranged
 TBA = To be announced

Course Meeting Times

Course meeting start and end times are indicated for each course if available. Some courses list multiple meeting times and days. Separate lab sections are only listed when a student is given a choice of multiple meeting times and days.

Closed Courses and Wait Lists

When a course closes, students can choose to be placed on a waiting list. If significant over enrollment occurs for a course, the College may consider opening new sections to meet demand. Students are reminded that they will need to be registered for at least 12 credits (full time) in first-half courses for their financial aid to be placed on their accounts. Waiting list courses carry no credit; therefore, students should consider adding an alternate selection to their schedule if they are placed on a waiting list. A signed Add/Drop Form is necessary before a student will be moved from wait list status to register for the course.

****The College reserves the right to cancel courses with fewer than five students enrolled****

Second-Half Courses

Some courses begin the second half of a session just after midterms. These courses, such as some Outdoor Education activity courses, carry no credit until the course begins. Once the course begins, credit is added to the enrolled student's schedule and any billing adjustments are made. Second-half courses may result in tuition adjustments (if a student was part time before the course was added and now will be at a higher credit level or at full time); overload charges (if the additional credit raises their enrolled level over 17 credits), and additional course fees. Note: Second-half courses may not be used to reach full-time status for financial aid purposes.

Late Registration/Late Add

Students who begin the course selection and bill payment process after classes have begun or add a course after the add period will be required to complete an student petition form. If approved, the student will be assessed a \$25 late schedule change fee. Students who will not return to campus until after classes begin are asked to notify the Registrar's Office in order to hold their classes. Students who are not present at the beginning of a session and have not notified the Registrar's Office prior to their absence may be administratively dropped from classes.

Academic Policies

Minimum, normal, and maximum credit load

To be considered full time, students must take a minimum of 12 credits in each of the Fall and Winter sessions and 3 credits in the shorter Spring session. Normal loads are 12 to 17 credits and 3 to 5 credits, respectively. Overload charges apply for loads beyond 17 credits in the longer Fall and Winter sessions and 5 credits in the Spring session.

Add/Drop procedures

Students wishing to drop or add one or more courses can do so by logging onto their *Bridge* account and making the change up until the Friday before classes begin.

Once classes begin, a student will be required to complete an add/drop slip signed by their faculty advisor and the instructor of the class they are adding. Students may drop a course through the add/drop period on *The Bridge*. If a student stops attending a course and does not complete the add/drop procedure, a grade of "F" will be entered on the academic record.

A student who drops a course after the add/drop period and before the last day to withdraw for the Winter term will receive a "W" (Withdrawn) for the course. Any student dropping a course later than the withdrawal date for Winter will receive an "F" in the course.

Students with financial aid need to be at full-time status until the end of the College's refund period (25 class days during the Fall or Winter sessions) or they may jeopardize their financial aid. Please contact the Financial Aid Office for additional information.

Administrative (faculty-initiated) drop policy

Students who register prior to the first day of classes but who miss the first two meetings of a 50-minute class or the first meeting of a class that meets for 75-minutes or longer MAY have their registration in that course canceled by the instructor. Faculty-initiated drops must be received in the Registrar's Office by Friday of the first week of the sessions. If extenuating circumstances prevent a student from attending the first meetings of a class, the student must contact the instructor or the Registrar's Office prior to the first class meeting to confirm registration in the course.

Repeat courses

A student may not repeat a course if the course is a prerequisite of one already successfully completed within the same department. Athletes should check with coaches before taking a repeat course because it may affect their eligibility. Students receiving veterans' benefits may not include, in benefit level determination, the credits for a repeat course in which a "D" was previously earned.

The credit and grade earned in the latter attempt will replace any earlier grades on the academic transcript.

Audit policy

Students wishing to audit a course must meet the registration eligibility requirements and follow the regular registration procedures. Students may audit courses with the following stipulations:

1. A student must register as an auditor.
2. The decision to audit must be finalized and recorded in the Registrar's Office before the last day to add/drop.
3. No credit will be granted for the course, but an audit (AU) symbol will appear on the academic record.
4. An audit course may be repeated for credit in another term.
5. Appropriate audit fees (\$150 per course) are to be paid, and course fees are required.

Audits are to be indicated on an add/drop form during the add/drop period of a term. Audits do not count as credits for veterans' benefit certification, athletic eligibility or financial aid consideration.

Withdrawal policy

The College recognizes that circumstances may require a student to completely withdraw from the College during a session. Students desiring to withdraw from Northland College should contact the Registrar's Office and follow the instructions given by this office. Students will be given the Northland College Withdrawal Statement.

Unless this form is completely filled out, the student will not be eligible for tuition adjustments and may be responsible for paying back any financial aid received from the College. A student

will have been considered withdrawn on the date that the withdrawal statement is returned to the Registrar's Office. **NO WITHDRAWAL IS CONSIDERED OFFICIAL UNTIL THESE PROCEDURES ARE COMPLETED.**

A student who leaves college before the end of a session without officially withdrawing will receive a grade of "F" for all courses during the session. Students who follow proper withdrawal procedures will receive a tuition adjustment based on the refund schedule and refund policy as stated in the College catalog.

Special courses

Students may enroll in one of the following courses provided they meet all eligibility criteria. These courses cannot be added to a student's schedule until all required forms are completed and processed by the Registrar's Office. Each type of course has a special numbering system based on the type of experience and credits.

Internships: 292 and 492

Independent Study: 290 and 490

Arranged Courses: course number same as catalog listing

Field Experience: 291 and 491

Senior Thesis: 496 and 497

Teaching Assistant: 294 and 494

Research Assistant: 295 and 495

Freshmen and sophomores enroll in 200-level section; juniors and seniors enroll in 400-level section.

Students must be in good academic standing to enroll in any special course experience.

Independent studies have an additional minimum GPA requirement (3.0 cumulative).

Internships: To enroll in a work experience for academic credit, a student must complete the Special Course Registration form. Internships range in credit from 1 to 4 depending on the time commitment of the student. A maximum of 12 credits from internships and field experiences can be applied toward graduation. Internships are graded S/U.

Independent Study: Arranged with an instructor, an independent study represents course work in a specialized area or in-depth coverage of present course work. To enroll in an independent study course, a student must complete the Special Course Registration forms. All students must meet the GPA eligibility requirements of a 3.00 overall. Independent studies are letter graded.

Arranged Courses: A student requesting an instructor to offer a course on an arranged basis must complete the Arranged Course form and then secure permission from the instructor and the Academic Dean. Usually the need for an Arranged Course arises from scheduling difficulties. An Arranged Course form is not automatically approved. Liberal Education requirements may not be satisfied on an arranged basis. Alternate courses and arrangements should and will be pursued before an Arranged Course will be approved.

Field Experience: Unlike the intensive individual coursework of an Independent Study, Field Experiences arranged through a faculty member or department offer the student hands-on experience in their major/minor field of study under the direct supervision of the faculty member. Forms and permission are secured in the same manner as Independent Studies above. Since faculty members serve as sponsors and supervisors, Field Experiences differ from Internships and have no direct career exploration component to them. Field Experiences are graded S/U. A maximum of 12 credits can be earned from internships and field experiences.

Senior Thesis/Research: A senior thesis/research or capstone experience is requested in most academic programs. Students completing a Senior Thesis or Research Assistant will have taken part in an academic experience normally reserved for graduate school. Check with your faculty advisor to ascertain the availability of this option in your area. Senior Thesis/Research can be one session (496) or one year in length (496 and 497).

Teaching and Research Assistant: Students may serve as Teaching Assistants in certain courses with approval from the instructor. Generally, in these experiences students will assist the instructor in classroom activities, student training, or material preparation in a course in which they have particular skill or background. A Teaching Assistantship may be taken for credit of equal or lesser value than the course in which they will be assisting. The grading method shall be the same as the assisted course. Research Assistantships are letter graded.

Satisfactory/Unsatisfactory grading option
Students may enroll in Outdoor Education activity courses (numbered 028-099) on an S/U (Satisfactory/Unsatisfactory) basis by declaring their intent with the Registrar's Office within the first two weeks of the Winter or winter session, or within the first four days of the spring session. Additionally, students classified as juniors or seniors who have a GPA of 2.50 or better may take up to four courses on an S/U basis, without any effect on grade point average, under the following conditions:

1. Only one course per session, exclusive of OED activity courses, may be taken on an S/U basis. However, a course offered only on an S/U basis for all students will not be counted in the four courses allowed.
2. The S/U courses may not be required courses in the Liberal Education Program, in the student's major or minor fields (except Internships and Field Experiences), or in courses needed for teacher certification.
3. The student must satisfy all prerequisites for the course.
4. The student must file with the Registrar's Office his or her intent to take a course on an S/U basis. Within the first two weeks of the Fall or Winter sessions or four days of the Spring session, the student may request the Registrar's Office to change the mode of evaluation from an S/U to a letter grade.
5. When grades are reported, the Registrar will enter on the student's record a mark of "S" for a letter grade of "C" or better or "U" for a letter grade of "C-," "D+," "D," or "F".

Graduation and honors

Graduation occurs when a student has completed 124 credits, has a GPA overall and in the major of 2.00 or better (2.75 in Teacher Education), and has completed the Liberal Education Program and one major sequence of study. The student's GPA will determine graduation with honors at the end of the Winter term before Commencement. Honors designations on transcripts will be based on the student's complete academic record at Northland College. Transfer students are eligible for honors based on the Northland College GPA alone, provided they complete a minimum of 48 non-S/U graded credits in attendance.

Grade point requirements for honors are:

3.50 – Cum Laude

3.70 – Magna Cum Laude

3.90 – Summa Cum Laude

Dean's List Honors: The Dean's List is computed at the conclusion of the Fall and Winter sessions.

To qualify, students must be full time (both Fall and Winter/Spring), enrolled in a minimum of 12 credits of non-S/U graded courses, and earn a 3.50 grade point average with no grades less than "C" and no incompletes.

Incomplete policy

A grade of "I" (Incomplete) may be given to a student who has nearly completed a subject satisfactorily and then, because of illness or unusual and substantiated cause beyond the student's control, has been unable to take or complete the final examination or to complete some limited amount of work. An incomplete is not given for unsatisfactory work, and an incomplete is not given if the final examination has been missed unless the student is able to provide proof that attendance was prevented for sufficient cause.

Incompletes will stay incomplete (grade of "I") on the transcript unless the work is completed within six months from the last day of term. Grade changes will not be allowed after six months.

Services for students with disabilities

Individuals who have any disability, either permanent or temporary, that might affect their ability to perform in classes are encouraged to inform the instructor and/or the Coordinator for Students with Disabilities (ext. 1340) at the start of the term. Adaptations of methods, materials or testing may be made as required to provide for equitable participation.

Fee Information and Withdrawal Refunds

WITHDRAWAL REFUND POLICY

Certain circumstances may require a student to leave campus or withdraw from the College during a session. If this should occur, the student must officially withdraw from and meet any outstanding financial obligations to the College. (See WITHDRAWAL FROM COLLEGE under ACADEMIC POLICIES AND PROCEDURES in the ACADEMIC AFFAIRS section to learn how to officially withdraw from Northland.)

Tuition refunds are calculated according to the schedule below and credited to a student’s account. Students receiving financial aid who receive tuition and/or room and board refunds will receive a similar reduction in their total financial aid package. Students receiving federal financial aid through Title IV programs will receive a refund consistent with federal regulations. Please contact Financial Aid for more information on calculating refunds for students receiving financial aid. There is an administrative fee for calculating refunds, which is the lesser of 5 percent of the calculated refund or \$100.

TUITION REFUNDS FOR WITHDRAWING STUDENTS

Tuition refunds for withdrawing students are calculated based on the following schedule.

During the first 10 class days.....	80 percent refund
During class days 11 to 15	60 percent refund
During class days 16 to 20	40 percent refund
During class days 21 to 25	20 percent refund
After the first 25 class days	No refund

A class day is any Monday through Friday during the fall and winter sessions.

SPECIAL CIRCUMSTANCES – MEDICAL/EMERGENCY WITHDRAWAL

A medical/emergency withdrawal is initiated in consultation with the Director of Student Development and is considered only under the following circumstances:

- Medical circumstances – non-routine, serious medical concerns such as illness or accident
- Family emergency – grievous personal loss beyond the student’s control

Each request must contain information that provides documentation of the medical circumstance or a specific written explanation about the nature of the family emergency. The Approval committee will review the completed request and will determine withdrawal eligibility. If approved, tuition refunds will be calculated according to the schedule below and credited to the student’s account. This is a tuition-based policy only. Students receiving federal financial aid through Title IV programs will receive a refund consistent with federal regulations.

Tuition Refunds for Medical/Emergency Withdrawal

Tuition refunds for students approved under the withdrawal request process are calculated based on the following schedule:

During the first 10 class days	100 percent refund
During class days 11 to 15.....	80 percent refund
During class days 16 to 20.....	60 percent refund
During class days 21 to 25.....	40 percent refund

LATE ADD FEE

The cost for adding or dropping a course after the add/drop period when approved by Academic Standings Committee is \$25. This fee is subject to change.

OTHER FEES

The following required fees are subject to change.

COMMUNICATION COMMISSION FEE

A \$81 Communication Commission fee is assessed for all students enrolled in 8 or more credits per session to help fund student publications and WRNC-LPFM radio.

JUNE & CRAIG PONZIO CAMPUS CENTER FEE

A \$150 June & Craig Ponzio Campus Center fee is assessed for all students enrolled in 8 or more credits per session to help maintain the student resources provided in the Center such as the Alvord Theatre, Post Office, Student Media, Student Development, Residential Life, Campus Minister, Campus Nurse, Counseling and Career Services, and Food Service.

STUDENT ASSOCIATION FEE

A \$180 Northland College Student Association fee is assessed for all students enrolled in 8 or more credits per session to help operate the Association and to provide student activities and entertainment.

NCSA RENEWABLE ENERGY FEE

A \$40 Renewable Energy fee is assessed by NCSA for all students enrolled in 8 or more credits. These funds are allocated annually by the senior class to a project to assist in a campus-wide effort to reduce energy consumption, use renewable energy equipment, and help mitigate greenhouse gases and persistent toxic substances.

TECHNOLOGY FEE

A \$150 technology fee is assessed for all students enrolled in 8 or more credits to support online services to students via the College's intranet, The Bridge, and to provide equipment and staffing to computer labs in Wheeler and Larson-Juhl Center for Science and the Environment.

ID CARD REPLACEMENT

Picture ID cards are required for access to the library, food service, certain buildings, and campus events. Students are issued on ID card without charge. Replacement cards are \$15.

GRADUATION FEE

A graduation fee of \$30 is assessed for all students during their final term before graduation. This fee covers the following costs: commencement mailings, degree verification, cap and gown rental, graduation tassel, embossed diploma cover, and diploma processing, printing and mailing.

ROOM AND BOARD REFUNDS FOR WITHDRAWING STUDENTS

Refunds are not made on room charges for withdrawing students. Effective the first Sunday after a student's official withdrawal from Northland, s/he will receive 75 percent of the remaining board costs on a *pro rata* basis. Room and board expenses for spring session are part of winter session expenses and are not refundable if a student does not attend or withdraws from the spring session.

OTHER FEE REFUNDS FOR WITHDRAWING STUDENTS

Required fees described under OTHER FEES in this section are nonrefundable. Courses that include special trip fees have individual fee schedules and refund policies. Please see the course instructor for more information.

Tuition Charges

For questions regarding billing and payment options, please contact Student Accounts in the Business Office at 715.682.1352 or toll free at 866.781.0001.

2006-07 Tuition Charges (effective August 15, 2006 – August 14, 2007)

Credits	Tuition
1	\$ 390
2	780
3	1,170
4	1,560
5	2,585
6	3,640
7	4,695
8	5,750
9	6,815
10	7,870
11	8,925
12-17	10,094
18+	10,094 + \$390 per credit hour
Audit	\$150 per course plus course fee if applicable

Overload fee is \$390 per credit hour for credits in excess of 17 in Fall or Winter term and 5 in Spring term for all students.

Degree Completion tuition is priced differently from regular tuition. For information, call Clare Hintz at 715.682.1492.

Off-campus credit rate is \$1,450 per session for all students who take off-campus experiences that are credited through Northland College for 12 or more credits. Off campus credit rate is \$120 per credit up to 11 credits.

International study and travel course deposit schedule

Spring trip deposits are due December 15th. Subsequent payments are dependent on trip.

Fee Amount	Deposit Required
\$1,000+	\$500
\$500-999	\$200
\$150-499	\$100

INSTRUCTIONS FOR PRO (Paperless Registration Online)

1. You must have a Northland College computer user ID and password in order to proceed. Please contact Doreen Kroll in the I.T. department at 682-1855 to obtain one if you don't already have one.
 2. Prepare your preliminary list of course selections. Remember, to be considered full-time status you must be registered for at least 12 credit hours. If you are uncertain of how to select your courses, your advisor will assist you. Choose alternate courses carefully.
 3. Check the College catalog and *Timetable of Courses* carefully to make sure you meet the requirements for the courses you select. Pay particular attention to the prerequisites for each course.

If a course is marked "Instructor Consent", you must have written consent from the instructor to register. Complete the Add/Drop form, and obtain instructor signatures where needed.
 4. It is your responsibility to make an appointment to meet with your advisor before you register. Allow adequate time to meet with your advisor and plan your schedule of classes. After you have met with your advisor, discussed your course selections, and obtain your PIN and day to register, you are ready to register online.
 5. Follow these steps to register online:
 - ✓ Login to *The Bridge* with your ID and password.
 - ✓ Click on **School Services**
 - ✓ Click on **Campus Services**
 - ✓ Click on **Student and Financial Aid**
 - ✓ Click on **Registration**
 - ✓ Click on **Select Term** (choose the term you are registering for and click submit)
 - ✓ Click on **Check Your Registration Status** to see if you are eligible to register at this time. All holds on your account must be cleared before you will be allowed to register (click on back to return to menu).
 - ✓ Click on **Register for Classes**. At this point a pop-up box will prompt you to enter in an alternate pin number. This is the six digit number that you received from your advisor.
 - ✓ Enter the **CRN** (Course Reference Number) for the course you want to add to your schedule. Enter only one CRN per box. The CRN is the 4-digit course number located in the *Timetable of Courses*.
 - ✓ After entering all the CRN's for the term, click on **Submit** to register for the classes.
 - ✓ Registration errors will appear if any occur. If a course is closed, you will be given the option to be waitlisted in the course. You must click on the drop-down box and choose waitlisted in order to be waitlisted and then hit submit.
 - ✓ It is not necessary to bring in a paper copy of your registration form to the Registrar's Office. Complete an add/drop form if you need to obtain instructor consent for any courses.
- NOTE: You can only register for courses that have a CRN in the Timetable of Courses. Registration for any other courses, such as internships, field experiences, etc., must be done according to the instructions on the Special Course Registration form and submitted in person to the Registrar's Office.*
8. You can view your schedule by clicking on **Student Detail Schedule**. You will be able to drop any courses from your schedule on *The Bridge* up until the last day to add/drop, but you must complete an add/drop slip to add any courses.

Special Student Enrollment & Evening Courses

Special Student Enrollment

The following courses are offered during the evening. Please register using a Special Student Registration Form unless you have access to register via *The Bridge*. Submit your special student registration form along with payment to the Registrar's Office.

DATES OF INTEREST

Registration for winter/spring 2007 begins on November 13, 2006.

Note: Student schedules for pre-registered students can be viewed via The Bridge on the Northland College web page. Please contact the Registrar's Office for more information on this.

CHARGES FOR WINTER SEMESTER

\$390 per credit for 1-4 credits. For more than 4 credits, please see Tuition Charges section of this *Timetable*.

Audit Fee: \$150 per course. Course fees, if applicable, are an additional cost.

For questions on payment methods please contact the Northland College Business Office at 715/682-1352. Payments are refunded 100% for cancelled courses.

Winter Evening Courses

The following MGT, HCA, & NUR courses are part of the Degree Completion program. Enrollment is open only to students admitted to this program or upon consent of the program coordinator. Please contact Clare Hintz at 715/682.1492 for more information.
